

Inspection Report

UNIVERSITY OF LOUISIANA AT LAFAYETTE

Customer ID: 1451

Certificate: 72-R-0007

Site: 001

PO BOX 41008

Type: ROUTINE INSPECTION

LAFAYETTE, LA 70504

Date: May-31-2011

2.33 (b) (3) **DIRECT NCI**
ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

(b) Each research facility shall establish and maintain programs of adequate veterinary care that include:

(3) Daily observation of all animals to assess their health and well-being; Provided, however, That daily observation of animals may be accomplished by someone other than the attending veterinarian; and Provided, further, That a mechanism of direct and frequent communication is required so that timely and accurate information on problems of animal health, behavior, and well-being is conveyed to the attending veterinarian;

Facility Director self-reported the deaths of 3 Rhesus monkeys which became trapped in a chute in one of the outdoor breeding colonies.

The remains were autolyzed therefore they had been trapped for some time and not properly monitored .This is a violation of the daily observation regulation.

This is a focused inspection report based on the information provided by the Facility Director.

This is a corrected inspection report changing the name and title of person receiving report and date of receipt to NIRC Director from name and title of another facility director inadvertently printed by ACIS.
