Certificate: 87-R-0001

Site: 003

UNIVERSITY OF UTAH

OFFICE OF COMPARATIVE MEDICINE
75 SOUTH 2000 EAST, SUITE 311
SALT LAKE CITY, UT 84112

Type: ROUTINE INSPECTION

Date: Jun-10-2011

2.31 (c) (7) **REPEAT**
INSTITUTIONAL ANIMAL CARE AND USE COMMITTEE (IACUC).

(c) IACUC functions. With respect to activities involving animals, the IACUC, as an agent of the research facility, shall:

(7) Review and approve, require modifications in (to secure approval), or withhold approval of proposed significant changes regarding the care and use of animals in ongoing activities;

Changes regarding the care and use of animals in ongoing activities are not always being reported to the IACUC so that the IACUC can perform the required review and evaluation to determine whether it can approve the proposed change in the activity. An IACUC approved protocol on swine called for Buprenorphine to be given prior to surgery. It was not given to pigs 11 and 34, who had procedures performed the last week of May, 2011, or the pig who had a procedure performed June 7, 2011. There is no amendment to the protocol indicating the change in animal use.

The IACUC must be aware of changes to the protocols and evaluate them to determine whether the modification is in accordance with the Animal Welfare Act, Standards, and Regulations and whether they can approve the modification.

The previous correction date was "Correct from this point forward" on the January 29, 2010 report.

The inspection was conducted on multiple days--May 25, 2011, June 3, 2011, June 9, 2011, and June 10, 2011--with the Directors of the Office of Comparative Medicine and/or the IACUC, with a discussion of the above issue on June 10, 2011. The exit interview was clarified by telephone on August 11, 2011, with the Director of the IACUC.
